

Good news from CCSSCI!

Chinese Community Social Services Centre (CCSSCI) would like to express our sincere regards and to give support to all of our dear consumers, we have prepared a unique 'Care package' for each of our current consumers of Social Support Day Centre (SSDC), Home Care Packages Program (HCPP) and NDIS Support Service. Our centre will continue to stay in our position, offering our consumers timely and appropriate care and services, and supporting and accompanying all of you to pass through the current 'Stay at Home' period. From today (27/4) onwards, our dedicated staff will delivery our 'Care packages' to your door.

Your safety is our top priority! All our dedicated staff will wear their lanyards with staff ID and put on surgical masks during their delivery. We will provide 'Contactless' delivery, which means our dedicated staff will put the 'Care Package' at your door, then they will notify you to collect it without a close contact with you. If you are at home at that moment, we will put the 'Care Package' in a safe place and will inform your case workers / case managers to follow up with you.

Here are behind the scene photos of our 'Care Package' production, please enjoy and look forward to receiving our unique 'Care Package'!

Stay Home, Stay Safe, Stay Healthy!
